Ms. Beverly Herzog
Illinois Institute of Natural Resources
State Geological Survey Division
Natural Resources Building
615 East Peabody Drive
Champaign, IL 61820

Dear Ms. Herzog,

This letter is to request information on the hydrogeology of an unauthorized hazardous disposal site in the SE 1/4 NE 1/4 Section 29, T. 17N., R. 3W., Rock Island County, Illinois. Spent 1,1,1-Trichloroethane has been dumped onto a gravel roadway behind a small factory named Export Packaging located at 8201 42 Street W. Rock Island. Prior to March, 1981, for an unknown number of years, one 55 gallon drum per week was dumped. From September, 1981 to November, 1981 twelve drums were dumped.

The Rock Island County Health Department has informed this office that the only nearby wells are to the south of the site. Would you please provide any relevant information and comment on the probability of groundwater contamination from this site.

Thank you in advance for your assistance. Should you need more information on this site please contact Ms. Pamela D. LoPinto, of this office.

Sincerely,

A handwritten signature in cursive script that reads "Robert A. Wengrow".
